PERSONAL SUMMARY

Highly motivated Front-End Web Developer with a Bachelor's degree in Computer Science. Proficient in HTML, CSS, and JavaScript, with a passion for creating engaging user experiences. Seeking opportunities to apply expertise in innovative projects as an intern or junior developer in a web development company. I am confident in making a positive impact in any IT department.

EXPERIENCE

While my professional journey may lack formal work experience in the IT sector, I've embarked on numerous projects during my studies and personal projects to strengthen my abilities. . From creating an Amazon clone to developing interactive quiz game, I've demonstrated my commitment to learning and self-improvement.

PROJECTS

Personal Portfolio Website

🔗 https://github.com/IvanHriistov/Personal-Portfolio

A portfolio website highlighting my skills as a Front-End Web Developer. Features include smooth navigation, responsive design, and a visually appealing layout.

Weather App

🔗 https://github.com/IvanHriistov/Weather-App

Crafted a stylish weather app using HTML, CSS, and JavaScript, with live updates from OpenWeatherMap API. Displays temperature, humidity, and wind speed with intuitive weather icons and error handling.

Amazon Clone
